The Challenge

With the keys to 10 cars, and 6 different driving disciplines to master, this is an action packed day which tests a driver's nerve and quick thinking as much as their speed. While the National circuit and Oval (Europe's fastest circuit) are perfect locations to push some legendary supercars to their limits, The Wet Grip, Skid Pan and 4 x 4 courses challenge even the best drivers, testing their vehicle control.

Master 6 Driving Disciplines

Supercars

Drive some of the World's most desirable cars. All are savagely fast and thrilling to drive but each one requires a different approach to get the most from it.

Race Car Driving

Inches from the ground and with no ABS or traction control, this is the ultimate introduction to old school motor racing.

Rallying

Drivers skills are put to the test as they cover various terrains and tackle inclines, dips and blind bends, all against the clock.

Dynamic Car Control

The wet grip area is a state of the art facility allowing you to experience driving techniques and skills on a variety of low grip surfaces.

4 x 4

Machine battles mother-nature on our purpose built course. The challenge is to keep the car moving and complete the course. A test of nerve as well as driving skills.

Skid Pan

A BMW 3 Series is fitted to Scandinavian cradles, lifting the car and reducing its grip. Learn to drive while aquaplaning.

Drive 10 Stunning Cars

The Days Events

08:15 – Arrival and Breakfast

After registering with our team enjoy a delicious breakfast selection, including sausage & bacon rolls and Danish pastries.

08.45 – Welcome & Drivers Briefing
